PROFESSIONAL SUMMARY

Mid-level Frontend Developer with 7+ years of professional experience building scalable, accessible web applications using React, TypeScript, and modern CSS. Experienced in Agile teams at Karl Storz and Bosch, delivering features used by thousands of daily users. Strong focus on code quality, testing (Jest, Playwright), and CI/CD. Excited to contribute solid React/TypeScript skills to N26's team.

PROFESSIONAL EXPERIENCE

Frontend & Fullstack Software Developer | Karl Storz SE & Co. KG | Berlin | Feb 2024 – Apr 2026

- Developed React/TypeScript interfaces for clinical internal tools, serving cross-functional medical teams with high reliability requirements
- Implemented Clean Architecture principles on the frontend, establishing reusable component libraries with strict TypeScript typing
- Set up and maintained GitLab CI/CD pipelines with Docker; reduced deployment friction and improved test coverage to 80%+
- Collaborated closely with backend engineers on REST API integration and with UX designers for accessible, user-friendly interfaces

Frontend Developer | Robert Bosch GmbH | Guadalajara, Mexico | Dec 2018 – Aug 2023

- Built and maintained React and Angular SPAs for internal manufacturing digitalization platforms serving 5,000+ daily users at Bosch plants
- Managed complex state with Redux, NgRx, and Context API; wrote unit/integration tests with Jest and React Testing Library
- Mentored junior developers through code reviews, pair programming, and knowledge-sharing sessions on React patterns
- Worked in cross-functional Agile (Scrum/Kanban) teams delivering features across 4-year tenure with consistent velocity

Junior Frontend Developer | Flex Ltd. | Guadalajara, Mexico | Dec 2017 – Dec 2018

- Developed responsive web interfaces using JavaScript (ES6+), HTML5, and CSS3 for internal supply chain tracking tools
- Contributed to UI component development and bug fixes within an Agile team, gaining hands-on React fundamentals
